**Notes:**

You may feel items have been omitted which you may wish to bring. Check off the item when you pack your kit and check it off again when you unpack your rucsac / bag after you get home.

**Mobile Phones are not to be brought to camp** unless permission has been granted by a Leader. In emergencies Leaders will contact parents direct by the information provided on the Medical Form.

A bobble type hat is better than a baseball hat as it can be pulled down to cover the ears. Plastic bags are for putting used clothing in. It is a good idea to line your rucsac with a strong bin liner as this will protect you kit from getting damp.

**Please ensure that all items have the owners name clearly marked on them. At the end of camp we always seem to have literally dozens of items which are not claimed and are difficult if not impossible to return to the correct owners as there is no identification on them.**
